About AISDW2025

The University of Raparin, Akre University for Applied Science , Duhok Polytechnic University and Universiti Tun Hussein Onn Malaysia jointly organize the conference. This is the inaugural iteration of the AISDW25, and the next edition will be organized in 2026.

The conference aims to bring together leading academics, scholars, and students to discuss theoretical and practical issues related to AI applications through sharing their experiences and research results. Its focus is to create and distribute knowledge about using AI applications in various sectors of human life. The conference provides a premier interdisciplinary forum for presenting and discussing the most recent trends, issues, and innovations, as well as the real-world difficulties encountered, and solutions put into practice in AI research.

The 1st AISDW25 attempts to attract researchers, scientists, and technologists from universities, research firms, and government agencies worldwide. All submitted papers will be subjected to double-blind peer review and critical evaluation by conference committees. Acceptance decisions will be made according to the paper's novelty, technical depth, and relevance to the conference scope.
